WHY

MORE THAN
ONE MILLION
COPIES SOLD

My WHY...

- Protect my clients (all are law firms).
- Make lawyers better at what we do (more accurate & efficient).
- Be every lawyer's Sherpa.

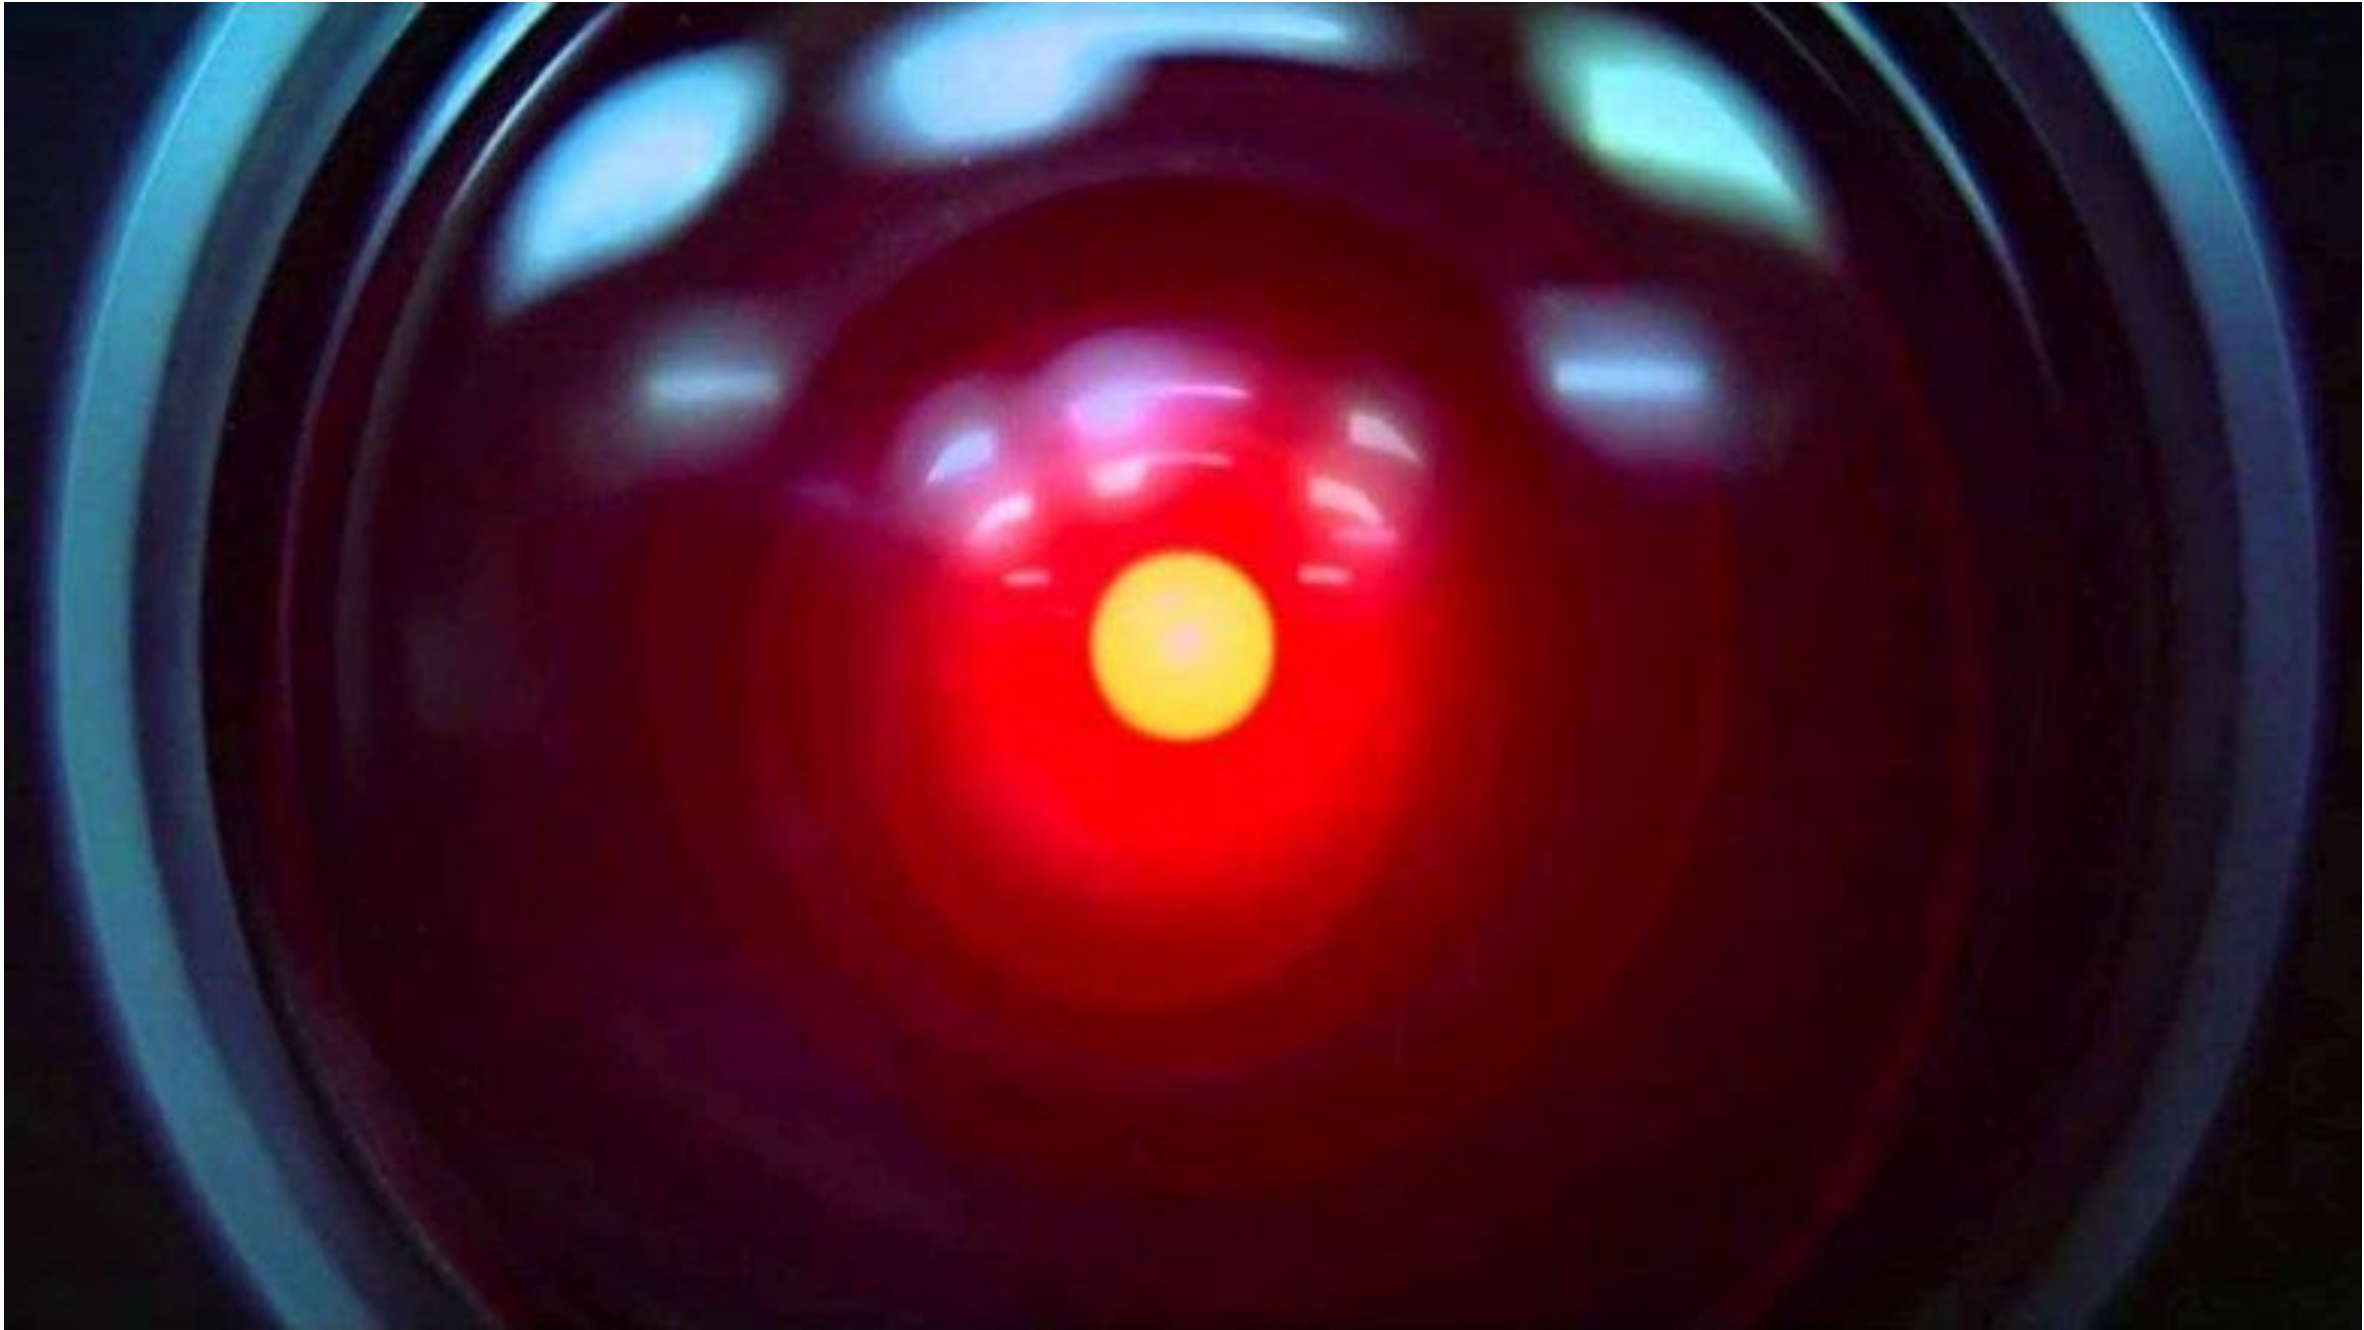

Two points...

- Remember the guy last spring who briefed a court with nonexistent cases that ChatGPT swore were solid? That's one.
- I had my own run with ChatGPT and Bard last June... it didn't go well for the technology. That's two.

ARE YOU

SURE?

Business | First thing we do, let's bot all the lawyers

Generative AI could radically alter the practice of law

Even if it doesn't replace lawyers en masse

A man with brown hair and glasses, wearing a light-colored striped short-sleeved shirt and a dark patterned tie, stands in an office cubicle. He is looking down at a computer monitor. The office has a drop ceiling with fluorescent lights and cubicle walls. In the background, another person is partially visible at a desk.
